## Horse and Pony Cubes

Oil 3.50% Protein 10.50% Fibre 16.5% Ash 8.0%

An ideal product for providing an optimal nutritional diet for equines in light-medium work on a predominantly grass based diet. The cube provides high quality protein and oil from soya which are specially included to aid with muscle development. The cube is supplemented to a high level with vitamins and minerals to aid a balanced diet. The 6mm extruded cube encourages roughage intake and a healthy gut fill. The mix also contains added Biotin to improve hoof integrity.

---

## Horse and Pony Mix

Oil 3.50% Protein 10.0% Fibre 13.0% Ash 7.0%

An ideal coarse mix for providing an optimal nutritional diet for equines in light-medium work. The mix provides high quality protein and oil from soya, which is specially included to aid with muscle development. The mix is also supplemented to a high level of vitamins and minerals for a healthy coat and balanced diet. The mix also contains added Biotin to improve hoof integrity.

---

## Hi Fibre Nuts

Oil 2.5% Protein 6.0% Fibre 24.0% Ash 5.0%

The nuts are formulated to contain a very high level of fibre to increase gut mobility and flow. The high fibre content increases gut fill and helps slow ingestion time. The high fibre nuts are a good substitute to forage based materials, and can be fed as a forage replacer, however the nut works better when fed in conjunction with good quality forage. This nut is not mineralised, for a mineralised version please see Herbal Hi Fibre Horse and Pony Cubes.

---

## Conditioning Cubes

Oil 4.75% Protein 13.0% Fibre 14.0% Ash 7.0%

The Conditioning Cube should be used to enhance performance of the under conditioned horse. Specially formulated with high quality protein from Soya, to aid with muscle development and repair, added vitamins and minerals to improve performance that shows on both the inside and the outside. The cube is manufactured as a 6mm cube.

---

## Cool Mix

Oil 3.50% Protein 10.0% Fibre 16.0% Ash 7.50

A perfect "non-heating" mix for those who wish to provide their horse with optimal nutrition without the emphasis on cereals. The mix has a very low cereal inclusion rate which means it does not provide "quick energy release". This will help reduce any over excitability and unpredictable behaviour. The mix has a high quality protein source from Soya as well as added vitamins and minerals. The mix also contains added Biotin to improve hoof integrity.

---

## Horse Treats

Oil 3.50% Protein 12.0% Fibre 15.5% Ash 7.50%

Equerry Herbal Horse Treats are specially formulated to provide your horse or pony with a healthy treat. The treats contain a very palatable Herbal Mint Garlic mix, included to provide a healthy sweet taste to the treat. Equerry horse treats are an ideal way to spoil your horse or pony without the worry about sugar issues and thus the potential dental problems that may occur. The treats are recommended as a treat and should therefore be fed accordingly. The treats are available in 2kg buckets providing an ideal solution to treating your horse whilst out and about at shows and events etc, the bucket also helps to improve storage and helps to maintain the treats to the highest quality from the day they are bought.

---

## Veteran Mix

Oil 4.5% Protein 14.0% Fibre 12.5% Ash 7.50%

An ideal mix for providing optimal nutrition for the older equine, achieved by providing high quality protein from Soya. The high quality protein is included to aid with muscle development and repair. The mix is also supplemented to a high level with vitamins and minerals to improve coat quality and help maintain a healthy diet.

---

## Premia Mix

Oil 5.25% Protein 15.0% Fibre 11.0% Ash 8.0%

A highly nutritional mix formulated for equines in medium-heavy work. The mix provides quality protein from soya, specially included to aid with muscle development and repair. The mix is supplemented with a vitamin and mineral premix to aid a balanced diet. The mix also contains added biotin to improve hoof integrity and magnesium to aid with muscle and skeletal strength.

---

## Stud and Yearling Mix

Oil 5.25% Protein 15.0% Fibre 11.0% Ash 8.0%

The ration is formulated to meet the nutritional demands of broodmares, working stallions and growing young stock. It is an ideal ration to feed in combination with a good quality forage. There is a high level of vitamins and minerals to help maintain a balanced diet. The mix contains added biotin to improve hoof integrity and magnesium to aid with muscle and skeletal strength.
